

## EVERYTHING

Temporarily misdirected  
Opportunity unattended  
All that beauty's complicated  
All that beauty's complicated

Complicate it more  
for me, for me, for me

Arbitrarily overloaded  
Customarily been avoided  
Waiting around still unappointed  
Waiting around still unexploited

Wait around a little more  
with me, with me, with me  
For me

What are you thinking about?  
Everything  
What are you dreaming of?  
Anything  
What are looking at right now?  
Everything  
What are you gonna do?

Start it up right, start it up right  
Start it up right, start it up right  
Start it up right, start it up right  
Start it up right, start it up right  
with me, with me, with me, with me  
with me, for me, for me, for me  
For me

What are you thinking about?  
Everything  
What are you dreaming of?  
Anything  
What are looking at right now?  
Everything  
What are you gonna do?

What are you thinking about?  
Everything  
What are you dreaming of?  
Anything  
What are looking at right now?  
Everything  
What are you gonna do?  
For me
