

## STEREO

I'm running naked in dreams again  
Avoiding glances and dodging cars  
I miss my train again  
Unbearably closer but far

I try to fly but I hang and fall  
Determined gravity pulls me down  
a bottomless hole again  
I'm nowhere with no one around

No go, my machine is running out of  
pure life gasoline, please, for the love of  
all beautiful things I turn my head and  
step out of my life

Just shut the door turn on the stereo  
Computer, vinyl, CD, radio  
All I know is complication simplified,  
Let it go  
Elevation amplified  
I lose my head inside my stereo  
Computer, vinyl, CD, radio  
All I know is complication simplified  
Out of mind, out of mind

I'm sad when you don't return a call  
So sad we both know the protocol  
but you've got the hand again  
like everyone else in this town  
Come get me out of this pyramid  
I wish I came with a winning bid  
but my block is low again  
Yeah, everyone's innocence drowns

No go, my machine is running out of  
pure life gasoline, please, for the love of  
all beautiful things I turn my head and  
step out of my life

Just shut the door turn on the stereo  
Computer, vinyl, CD, radio  
All I know is complication simplified,  
Let it go  
Elevation amplified  
I lose my head inside my stereo  
Computer, vinyl, CD, radio  
All I know is complication simplified  
Out of mind, out of mind

Forget the chemical adjustment  
My music's natural detachment  
All this absurdity will fade with every beat  
Forget my papers and appointments  
My failures and my disappointments  
All this insanity will blow away

Just shut the door turn on the stereo  
Computer, vinyl, CD, radio  
All I know is complication simplified  
Let it go  
Elevation amplified  
I lose my head inside my stereo  
Computer, vinyl, CD, radio  
All I know is complication simplified  
Out of mind, elevation amplified  
Just shut the door turn on the stereo  
Computer, vinyl, CD, radio  
All I know is complication simplified,  
Out of mind, out of mind  
Out of mind, out of mind
